

## Random Number Generator Certificate

This is to certify that iTech Labs has evaluated the Random Number Generator (RNG) by BestYolo B.V. and found that the RNG complies with the relevant standards.\*

The RNG uses a well-known algorithm to generate random numbers. The numbers generated by this RNG have passed Marsaglia's "diehard" tests for statistical randomness.

iTech Labs has evaluated scaling for Game Double, HILO and Open Case games.

The scaling tests were conducted on large enough samples to give the calculations sufficient statistical power.

iTech Labs has found that number sequences are unpredictable, non-repeatable and uniformly distributed.

The certified code for the RNG has been fingerprinted.
