

## Random Number Generator Certificate

This is to certify that iTech Labs has evaluated the Random Number Generator (RNG) by ME2ON CO., LTD. and found that the RNG complies with the relevant standards.\*

**Operator:** ME2ON CO., LTD.

**Operator URL:** <http://www.fulpot.com/>

**Software provider:** ME2ON CO., LTD.

**Software provider URL:** <http://www.me2on.com/>

The RNG uses a well-known algorithm to generate random numbers. The numbers generated by this RNG have passed Marsaglia's "diehard" tests for statistical randomness.

iTech Labs has evaluated shuffling for Single deck without joker and Six decks without joker for Card games. iTech Labs has also evaluated scaling of numbers used by the Slot and Sic bo games.

The shuffling/scaling tests were conducted on large enough samples to give the calculations sufficient statistical power.

iTech Labs has found that the card and number sequences are unpredictable, non-repeatable and uniformly distributed.

The certified code for the RNG has been fingerprinted.

\* The RNG was tested according to the Malta Remote Gaming Regulations 2004 S.L.438.04.

Disclaimer.

While it is not possible to test all possible scenarios in a laboratory environment, iTech Labs has conducted a level of testing appropriate for a component test of this type.
